

'BIT MORE CLUB'

Dear Parents,

Another Oak Class tradition, 'Bit More Club', will be starting shortly. Please read on to find out more information about this.

For a number of years, 'Bit More Club' has been a successful part of how we prepare our Year 6 children for SATs. The after school club provides another opportunity for children to practise and gain more confidence in certain areas of the curriculum in a supportive and friendly atmosphere. The club has always been a happy and purposeful setting where children and available teachers & parents work through past papers or similar tasks together.

This year, the emphasis will continue to be on discussing misconceptions & ideas with each other, listening to and supporting each other. We would highly recommend that your child attends as many of these sessions as possible. We will provide refreshments to make this even more tempting!

Bit More Club will take place on Thursday after school, from 3.30-4.15pm, on the following dates:

Thursday 15th March - maths arithmetic

Thursday 22nd March - maths reasoning

Thursday 12th April - SPAG

Thursday 19th April - maths arithmetic

Thursday 26th April - maths reasoning

Thursday 3rd May - maths reasoning

Thursday 10th May - SPAG

How Can you help?

*Please come along and stay for one or more of these sessions if you are able to. The more adults we have on hand to help the children, the better.

*In the past, parents have offered to bring some homemade cakes along to these sessions. If you think you might be able to do this for a session, please can you put your name next to the cake signup sheet which will be outside Oak Class. Many thanks in advance!

*Strongly encourage your child to attend as many of these sessions as possible.

Thank you for your ongoing support.

With best wishes, Kim and Sian.
